Mujuni Simon Peter – Software Engineer

Address: Kampala, Uganda | Telephone: +256 76 326 0219 | [Email](#) | [GitHub](#) | [LinkedIn](#) | [Website](#)

Introduction

I am self-driven, versatile and proactive team player, whose attention to detail and eagerness to bring new ideas enhance productivity and drive progress in an organization. My stint in entrepreneurship has overtime sharpened my appetite for building result-driven products that benefit both users and businesses.

Skills

- Python | Laravel | HTML5, CSS3, Javascript | NextJS | Java
- Project Management | Communication | Teamwork | Problem Solving

Experience

Chief Executive Officer – ScaleMet Technologies (July 2024 – Present)

- I am currently leading the team at ScaleMet Technologies, a startup focused on developing financial software solutions for businesses.

Chief Executive Officer – BeezGroup (October 2022 – August 2024)

- I coordinated the overall activities and monitor the progress at BeezGroup, a technology conglomerate company in Uganda, focused on Artificial Intelligence, Internet of Things and Cross-Platform Technologies.

Head of Research – BeezGroup (September 2022 – November 2022)

- I led the research processes for the development team at BeezGroup, a technology conglomerate startup in Uganda.

Marketing Lead – Google Developer Students' Club, Makerere University (August 2021 – July 2022)

- I was in-charge of publicity and mobilization among the Google Developer Students' Club members.

Education

Bachelor of Science in Software Engineering, Makerere University
